

JASPER GUMORA

FULL-STACK DEVELOPER

jaspergumora@gmail.com | +63 991 476 9174 | [linkedin.com/in/jaspergumora](https://www.linkedin.com/in/jaspergumora) | github.com/Vantalim12

EDUCATION

BS Information Technology

Sep 2021 – Jul 2026

Mindanao State University – Iligan Institute of Technology (MSU-IIT) | CGPA: 1.74 | Cum Laude

EXPERIENCE

Full-Stack Developer Intern

Feb 2026 – May 2026

OVCSI & Office of Planning and Development, MSU-IIT | 490-hour internship | ReactJS, Vite, Chart.js, Supabase, Firebase, n8n

- Built the iPLAN Dashboard (ReactJS, Vite, Chart.js), enabling MSU-IIT offices to digitally submit and track budget and project proposals.
- Developed Gun Safe Zone, a geospatial weapon-data and safe-zone analysis system (Supabase, Firebase) adopted by the Philippine National Police (PNP) and NPA for real-time high-risk area mapping.
- Automated recurring reporting workflows using Jupyter Notebook and n8n, replacing manual data-processing steps for the Office of Planning and Development.

PERSONAL AND UNIVERSITY PROJECTS

CCS Attendance Monitoring System — Lead Full-Stack Developer

Aug 2025 – Present

TypeScript, Node.js

- Built and deployed a real-time attendance monitoring system adopted by 2 colleges, CED (1,995 students) and CCS (1,200 students), eliminating manual tracking for over 3,000 students combined.
- Integrated data management features ensuring accurate records across all tracked college events.

eSihagBa — Lead Full-Stack Developer

Aug 2025 – May 2026

Capstone Project · Blockchain-based budget transparency system for Iligan City | TypeScript, Motoko, Blockchain (ICP)

- Built a blockchain-based budget transparency platform on the Internet Computer Protocol (ICP), enabling barangay-level stakeholders to track and verify public fund allocation.
- Piloted at Barangay Villa Verde, Iligan City with 5 daily active users among barangay captains, improving local government financial accountability.

BetterIliganCity.org — Co-Founder & Full-Stack Developer

Jun 2026 – Present

Open-source civic tech portal for Iligan City | Next.js, Tailwind CSS

- Co-founded an open-source, volunteer-run civic tech portal centralizing government service directories, requirements, and procedures for Iligan City residents.
- Building the platform (Next.js, Tailwind CSS) with a community contribution model, open pull requests, and public roadmap, covering local heritage content and public-data dashboards.
